SUMMARY

A dynamic and goal-oriented individual with a deep passion for problem-solving and a strong desire to gain hands-on experience across multiple areas of the software industry.

EDUCATION

Army Institute Of Technology, Pune

July 2023 - 2027

B.E. in Computer Engineering - CGPA: 9.41

EXPERIENCE

Sabka Developer InfoTech

Feb 2025 - Present

Full Stack Developer

- Developed a responsive web application using React for the frontend, enhancing user engagement and increasing session duration by **40%**, leading to a **20%** boost in client satisfaction.
- Built **RESTful APIs** using **Node.js** and **Express**, integrated **PostgreSQL** for efficient database management, and implemented **JWT** (jsonwebtoken) for secure authentication.
- Collaborated in **code reviews** and followed **Agile** methodologies, reducing bugs by **33%** and improving development efficiency by **25%**.

CRM Consultiqs

Dec 2024 - Feb 2025

Full Stack Developer Intern

- Developed and maintained **RESTful APIs** for seamless integration between frontend and backend, ensuring efficient data exchange.
- Developed interactive, real-time dashboards in **React**, improving data presentation and user experience, resulting in an **80%** increase in user interaction.
- Integrated **Redis** as a caching solution for high-traffic features, reducing application response times by up to **70%** and enabling the handling of many user requests.
- Developed **Cron jobs** to automate data retrieval, increasing update efficiency by **25%**.

PROJECTS

JobHub | *GitHub link*

- Designed and launched a job search platform, **scraping** 100+ job listings, improving search efficiency.
- Built the frontend using React and managed data storage with **MongoDB** for efficient job listing retrieval.
- Implemented cron jobs to automate email alerts for new job postings using **Nodemailer**. Integrated **Razorpay API** for seamless payment processing and **Clerk** for secure **authentication**.
- Tools Used:** React.js, Tailwind CSS, Node.js, Express.js, Puppeteer, MongoDB, Clerk, Nodemailer, Cron Jobs.

MediScan | *Github link*

- Developed an **AI-powered** tool that scans prescriptions using **OCR** and provides instant, easy-to-understand medication information with natural language processing.
- Designed a comprehensive medication reminder feature, enabling patients to effectively manage their medication schedules by sending timely alerts.
- Tools Used:** Next.js, FastAPI, NeonDB

SKILLS

Languages: C++, Python, JavaScript, TypeScript

Technologies: React.js, Next.js, Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, Redis

Concepts: Data Structures and Algorithms, OOP

ACHIEVEMENTS

Achieved a max Codeforces rating of 1338 (Pupil) | *Codeforces ID*

Achieved 6-star rating in Problem Solving on HackerRank | *Hackerrank ID*
